April 5, 1928.

Mr. Louis A. Burgess,
212 West Broad St.,
Richmond, Va.

Dear Sir:

I have yours of April 3rd. I will reply in detail within three or four days, as I have a large amount of Collier data; also Greene, that I will be pleased to send you in addition to what you already have.

I am still working on the Booker and Cuthbert families. I have not yet connected up Martha Marshall Booker, as to the name of her father and grandfather.

I am a member of the S.A.R.'s on the Greene side. I was unable to connect up Vines Collier with the Revolution, as he formerly fought in the Indian War at Fort Duquesne; but Dr. Eggleston sent us the data to connect up Vines Collier with the Revolution a few days ago.

Enclosed find carbon copy of letter that I wrote Mrs. Comer in regard to the genealogy; and I am quite sure that the data I sent Mr. Charles H. Collier, Richmond, was sent to Mrs. Comer. I do not take any exceptions, as you will note from my letter to Mrs. Comer. But inasmuch as I had employed helpers in New York City, searching the Society Library; likewise in England; also having my son while in Europe to go over to Stone, England, and search for additional data, and both of us doing a great deal of work in Georgia, I could only feel that I should have full credit for the article when Mrs. Comer sent it in. I do not happen to know Mrs. Comer personally, neither have I ever met Mr. Charles H. Collier, of Richmond, although we have passed quite a few letters.

I will answer sometime during the coming week, as to the complete data regarding the Collier family up to the present day generations, then you can arrange the wording to suit yourself.

Thanking you for your prompt reply, I beg to remain

Yours most respectfully,

JCC:S

Enc. letter.
